

Karandeep Sandul

AI-Enabled Data Analyst · Business Intelligence

✉ karansandul2004@gmail.com | 📞 +91 9664612862 | 🏠 <https://github.com/karansandul2004-stack> | 🔗 [linkedin.com/in/karandeep-sandul](https://www.linkedin.com/in/karandeep-sandul)

PROFESSIONAL SUMMARY

Detail-oriented and analytical aspiring Data Analyst with a strong foundation in data analysis, data visualization, SQL, Python, Excel, Power BI, Pandas, NumPy, and Matplotlib. Skilled in data cleaning, exploratory data analysis (EDA), statistical analysis, dashboard development, and transforming raw data into actionable business insights. Proficient in using Generative AI tools to improve productivity, automate repetitive tasks, accelerate data analysis workflows, and support data-driven decision-making. Passionate about continuous learning, problem-solving, and applying analytical skills to help organizations make informed business decisions while delivering accurate, high-quality results.

CORE SKILLS & TOOLS

Programming & Query Languages	Data Analysis & Visualization	AI & Productivity Tools	Version Control
Python	Power BI	ChatGPT	Git
SQL	Pandas	Google Gemini	GitHub
Excel (Advanced)	NumPy	Prompt Engineering	
	Matplotlib	AI-Assisted Data Analysis	
	Data Cleaning	Claude AI	
	Statistical Analysis		
	Data Visualization		

★ **AI Tools Proficiency:** ChatGPT, Google Gemini, Claude AI, GitHub Copilot, Midjourney, Perplexity AI — used for code generation, content creation, data analysis acceleration, and workflow automation.

FEATURED PROJECTS (LEARNING-DRIVEN PORTFOLIO)

Netflix Content Analysis Using SQL — [SQL \(MySQL\)](#) · [Git](#) · [GitHub](#)

- Analyzed a Netflix dataset containing 8,800+ titles to answer business-focused questions using SQL.
- Applied SQL concepts including GROUP BY, HAVING, CTEs, Window Functions, Subqueries, Aggregate Functions, String Functions, and Date Functions.
- Performed data cleaning and explored trends in content production, directors, countries, ratings, genres, and release years.
- Generated analytical insights through 25+ SQL queries and documented the project with a structured GitHub repository and comprehensive README.
- GitHub:** github.com/karansandul2004-stack/Netflix_SQL_Project.

WORK EXPERIENCE

Store Operations Management Intern | Pantaloons

September 2024 – November 2024

- Assisted in receiving and organizing incoming stock from the warehouse, ensuring products were accurately sorted and prepared for the sales floor.
- Performed inventory counting and barcode scanning to support stock verification and maintain inventory accuracy.
- Prepared merchandise for sale by unpacking, tagging, and arranging products according to store guidelines.
- Organized product displays and ensured merchandise was presented according to visual merchandising standards.
- Assisted customers with trial room operations, ensuring a smooth and organized shopping experience.

Worked collaboratively with the store team to support daily retail operations in a fast-paced environment while following company procedures.

EDUCATION

Data Analyst Program Tops Technologies, Vadodara	December 2025 – Present
Diploma in Hospitality Aerostar Jet Training Academy, Vadodara	2024
Bachelor of Arts – [General] [Sikkim Manipal University, Gangtok,Sikkim]	2022 - 2025
Higher Secondary Jay Ambe International, GBSE	2022
Secondary Swaminarayan Goodwill, CBSE	2020

ACHIEVEMENTS & EXTRACURRICULARS

- Completed and published a business-oriented SQL project (Netflix Data Analysis) on GitHub, demonstrating practical SQL and data analysis skills.
- Actively building a Data Analyst portfolio through hands-on projects using SQL, Python, Power BI, and Excel.
- Completed a Store Operations Management Internship at Pantaloons, gaining experience in inventory handling, barcode scanning, stock verification, and retail operations.
- Continuously expanding technical skills through self-learning and practical project development in data analytics and Generative AI.
